PERSONS LEAVING THE CITY may have THE STAR sent to their address by mail, postage prepaid, for such period of time as they may desire, at the rate of 15 cents per week, 60 cents per month, \$1.75 for three months, or \$3 for six months.

The money to pay for the time required must in all cases accompany the order. Otherwise the paper cannot be sent.

The Interoceanic Canal. The cable yesterday brought the information hat in France the shares in the De Lesseps nal scheme are at a discount and that there not likely to be any demand for them in Engand. This information is confirmed by private advices received by the United States government. In this country it is very doubtful if a dollar has been subscribed to the De Lesseps scheme, although that gentleman's agents are doing considerable advertising at all the commercial centers. As far as this country is concerned, the Panama scheme has been dead from the outstart; and now it is practically dead abroad. This leaves this government free to prosecute without any delay negotiations already opened with Nicaragua and the United States of Colombia, looking to concessions from those countries to a canal to be constructed as an American enterprise. In previous negotiations on this subject, Nicaragua and Colombia have been rather backward. They were perfeetly willing that the canal should be constructed, and to enjoy all benefits therefrom, but they were unwilling to do anything toward facilitating the work. Now the case is different. They have been frightened by De Lesseps and are anxious to do anything that will secure the project free from foreign political interference. They will doubtless readily grant territorial and other concessions that may be necessary for the accomplishment of the work. The route for the canal favored by this government is the Nicaraguan route. An earnest of this fact is the permission granted Civil Engineer Menocal to go to Nicaragua and complete the minor details of his work of former years on that route. There is, as has heretofore been shown in THE STAR, everything in favor of the Nicaragua route. This is the verdict of the best engineers foreign as well as American. The proposition of Captain Eads to establish communication between ocean and ocean by means of a marine railway is not looked upon with any favor. A canal, under the auspices of the United States over the Nicaraguan route is what is regarded as the proper method of establishing communication between the two oceans.

The corporation of Brooklyn is laboring under a load of a little over \$10,000,000 of unpaid taxes. What the city has got to represent this enormous sum, as well as what inefficiency on the part of her municipal officers permits it to in uncollected and grow larger every year are questions that her people very naturally want answered. Furthermore some of them would like a reply before the next election.

What good reason exists for not applying to Washington City the regulations of the National Board of Health for the prevention of infectious diseases? If they are good for anything, they ought to be adopted, without delay or question, one would suppose. If they are not good for anything, that fact ought to be made known as quickly and widely as possible, and others provided that will serve the purpose for which they are intended. In the District of Columbia. entirely in the hands of the general government, as it is, the vexed question or State Rights is not likely to arise, at least, and as it is the experimental garden for nearly everything they are afraid to try in other parts of the country, we don't see why the regulations above referred to should not be given a chance

The democrats of Connecticut are already beginning to agitate the question who shall fill the U.S. Senatorship now held by Senator Eaton, whose term expires in 1881. Ex-Gov. English and ex-Senator Barnum are leading rivals for the place.

For three cays the New York Sun has named no new candidate for the Presidency. Has the

Now that it is settled that one of the Egyptian obeliaks is to be brought to New York, it is to be hoped that the authorities of that city, or whoever may have the disposal of the matter. will be able to provide a more suitable and imposing place for it than was found for its mate in London. Located as that one is, low down on the banks of the Thames, and overshadowed on every side by high and massive structures of various kinds, its appearance is singularly insignificant and even disappointing. Standing completely isolated in the desert or among piles of ruins which tell vaguely the story of a grand and mysterious past, one of these pictured shafts is a most impressive and interesting object, but it is doubtful whether they can ever be transplanted to any scene within the influence of modern civilization and preserve even a tithe of their original charm. We are much afraid therefore that the New Yorkers will be greatly disappointed in their present, when they get it, no matter how good a place may be found for it.

Rev. "Adirondack" Murray, as he is familtarly called, has come to financial grief. The trouble was that he dabbled with both fast horses and newspapers-either one of which is generally supposed to be enough to "get away with" the spare funds of an ordinary individual. Murray, we suppose, thought he was an exception. He knows better now,

The Grand Hotel, of Paris, is to be offered for sale at auction this month, at the upset price of about \$5,000,000. If the new proprieter can pay that price for it and keep as poor a house as it has been lately, he will be a marvel.

The ingenuity and audacity of an insurance company that wants to avoid paying its losses are something that must command admiration, if they do not inspire confidence. After having conclusively shown that the late Col. Dwight, of Elmira,-or Col. Dwight, late of Elmira,-committed suicide, and that they are therefore not liable for the two or three hundred thousand dollars for which they had insured his life, the companies in interest now come forward with the claim that he is not dead, and never has been, and that therefore, &c., &c. Why not establish the fact at once that there never was any such person as Col. Dwight, and that he never had his life insured any way? That would have been much simpler and just as easy, and it will probably come to that in the end.

---The New York Times has resorted to the remarkable expedient of refrigerating its office this melting weather by giving a seven-column biography of Charles Francis Adams.

The republicans made some gains in the Kentucky election, but not enough to amount to an appreciable "straw."

No one can be sick if the stomach, blood, liver and kidneys are well. Hop Bitters keeps them well.

TOHN HOLLAND'S PATENT RECORD GOLD PEN. Patented Oct. 2, 1873.

Is the highest achievement in the manufacture of Gold Pensand the result of experiments for more than twenty years. The "RECORD" Pen is produced by a skillful combination of the two pre clous and non-corresive metals; 16 kr. Gold and Platinum, while the ordinary gold pen contains an aloy of copper, reducing its fineness without yielding that elasticity, censity and steel-like temper which the costly Platinum supplies. The "HECORD" Gold Pen Points are of the best Iridium, (Diamonds.) indestructible with fair treatment, and polished to glass-like smoothness. Steel pen writers have now every objection to gold fairly overcome, and every requirement in a Pen which will endure and not oxidize, squarely met. The "RECORD" Gold Pen is guaranteed to possess Durability, Permanency of Spring and Perfection of Point. Price, \$2.50, sold by all Jewesers and Stationers in the United States. If not found order direct from JOHN HOLLAND, Manufacturer, 19 W. 4th street, Cincinnati.

For sale by JOHN C. PARKER, 619 7th street maria.lawly.newst. mari9-lawly-urm

NAPON SPRINGS AND BATHS. (ALKALINE LITHIA WATERS.)
HAMPSHIRE COUNTY, W. Va.
Also Chalybeate Waters rich in iron, and afine
White Sulphur in the Neighborhood.

Open from June 1st to December annually. Unequalled by any mineral waters in America for the cure of acid dyspepsia, kidney and bladder troubles, uterine ailments, gout, diseases of the skin, and catarrh affections. It is an unfailing solvent of calculi. These waters have proved of great value, in many other diseases, but can be more confidently relied on in the above-named than any other mineral springs in this country. I guarantee a cure, if curable by mineral waters. The baths—hot, cold and shower—are inexcelled anywhere. The new and elegant swimming pool, 90 bp 47 feet (the largest in the Virginia mountains), is especially attractive. It is after that hay fever patients part with their troubles. Capon being nearer to all the cities north of the Potomac than any of the Virginia springs of note by an average of a hundred and fifty miles, claims a large pationage on that score. For pleasure or health the traveler need not go further. Bend for mighlets. Direct or call on W. S. THOMPSON, 103 16th street, Washington, D. C., for pamphiets or water.
